

## Join us for an interactive workshop to discuss key scientific findings from the EU-ATLAS Project and implications for Blue Growth

**Where:** National Oceanography Centre, Southampton. Lab G1, Level 6

**When:** Wednesday 10<sup>th</sup> April 2019, 0930 - 1630

The workshop will feature a diverse talk programme from a range of experts, panel discussions, and a poster session.

### Morning: Talk Programme and Panel Discussions, 0930 – 1315

- **Session 1:** Overview of ATLAS, Deep-sea mining in the North Atlantic, and Implications of applying an Ecosystem Approach.
- **Session 2:** Changes to North Atlantic circulation, Advancing knowledge on vulnerable marine ecosystems, ATLAS case studies & Blue Growth, and Research-Industry partnerships in the deep sea.
- **Session 3:** Blue Growth & insights from the ATLAS industry perspectives study.
- **Session 4:** EU-MSP Platform & spatial conflicts and synergies in Blue Growth, and Biodiversity beyond national jurisdiction.

### Afternoon: Poster session featuring ATLAS science, 1400 – 1630

Tea, coffee and snacks will be provided throughout the day. Participants need to be registered for Ocean Business, there is not a separate registration process for the workshop.
